OFFICE ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

CLAIMS:

Rejoined claims 11-20 & 31-40, and canceled 51-60 (all been withdrawn in the Election).

Authorization for this examiner's amendment was given in a telephone interview with *Steven H. Slater* on September 27, 2006.

Allowable Subject Matter

2. Claims 1-50 are allowed. Following is the Examiner's reason for allowance:

The cited arts fail to teach or suggest "a second deposition distribution that varies in substantial opposition to said first deposition distribution of said first spacer insulating layer as a function of said location of said split gate flash memory cell on said substrate," as set for with the claimed features of the composite spacer (and its forming method).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Extra Reference for FYI

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: *Hubbard* (US 5,797,623) discloses, [Fig. 3 and col. 3] "... the 161 and 162 electrodes vary in height h according to an inverse relationship. That is, as one electrode becomes smaller, the other becomes proportional larger."
